DIVISION OF NEUROSURGERY

Feb. 10. 1962

Dear Marshall,

My father saw ~~the~~ ^{this} article about you in Chem & Eng. Magazine in regard to protein metabolism. My old roommate has made his mark in the world and we're all proud of you. I visualize a rapid climb to the top of the biochemical heap within a few short months or years. Perhaps at this moment you are in the process of packing and moving to some large university to assume the chair of an outstanding department.

How have you been? I would like to hear that you are married but have my doubts what about this point? Victor Bloom recently wrote that Connie and June are living in Tennessee somewhere, associated with Vanderbilt. I guess that sort of leaves you the lone Wolverine remaining in L.C.

my program is moving along nicely. I'm now
doing some work in neuroanatomy teaching the
freshmen students the basic element - fancy that,
can you? Soon, I shall return to the ~~west~~
and assume the chief resident position. I'm hoping
to be out of here within 2 years. Where I shall
finally settle remains a mystery - perhaps ~~not~~ ^{will}
return to the midwest.

The world's fair is being held in Seattle
this year, as you know. What are the chances for
you coming out here to go to the fair and
see us in Portland - you could use a nice
vacation trip - Think about this, I'm serious

We would appreciate a letter from
you about your present status and what the
future will bring - it looks very bright
from the way I look at it

New address:

6730 S.W. Vermont Court

Portland 19, Oregon

Love—
